Most Wanted

Each of your Most Wanted Lists are categorized and maintained by your corresponding bulletin. Once you create a bulletin you will be able to enter the individuals within that bulletin. If your organization does not issue bulletins, you can place all your Most Wanted Suspects in a generic "All Most Wanted" area.

Once the information is entered on an individual you can edit the information to state that the individual has been arrested. Simply check the Arrested box and their information will display Arrested on their photo. This is also used to list the Most Wanted.
